Category: Commercial Flooring

Completion

Date: March 2005

System: Pedestrian Access

Product: Rhino Linings TUFF STUFF

Before...

Job Description

This factory had a serious safety issues with employees slipping on the existing flooring due to the floor becoming coated with a fine layer of chocolate dust during shifts. Management chose Rhino Linings Pedestrian Access Flooring System to resolve their OH& S issues.

TUFF STUFF® was applied to the floor in the PODS room and this was finished with an aliphatic topcoat with anti slip particles in it providing a seamless, flexible and slip resistant flooring.
