

Tracked Howitzer

Project: Internal Flooring and external steps

Category: Abrasion and Non skid protection

Completion

Date: 2004 and ongoing

Product: Rexar

Dealer: US Defence Dept and Rhino Linings USA

Job Description

Rhino Linings rugged industrial linings stand guard against impact, abrasion, and corrosion and are the ideal lining for protecting the vehicles and equipment that protect our troops. These versatile linings can be used to line the inside of cabs or to provide non-slip surfaces on fenders and step points. From olive-drab heavy haulers to desert-tan tactical and armoured vehicles, Rhino Linings stand tough against the elements.
